A: Red Hat Enterprise Linux is officially supported by Red Hat for 7 years. It's a better choice if you're running important machines in production, and you don't want to upgrade your OS all the time. It also has many nice features that are useful if you are running more than a few servers.

### **The Unofficial Fedora® FAQ**

If true, Sublime Text will save by writing to an alternate file and then renaming it over the original file.. Atomic save attempts to reduce data loss by only removing the original file when the new file has been successfully written. Because the a file is first created and then renamed instead of being updated in place, many file listeners and virtual file systems will get confused.
