

urban regeneration sustainability pdf

Regeneration programmes can claim some success in terms of the physical renewal of public space, the development of commercial properties in some areas, and the provision of new and refurbished homes (although not necessarily on the scale and in the forms needed).

infed.org | neighbourhoods and regeneration â€“ theory

Sustainability is the process of maintaining change in a balanced fashion, in which the exploitation of resources, the direction of investments, the orientation of technological development and institutional change are all in harmony and enhance both current and future potential to meet human needs and aspirations. For many in the field, sustainability is defined through the following ...

Sustainable agriculture can be understood as an ecosystem approach to agriculture. Practices that can cause long-term damage to soil include excessive tilling of the soil (leading to erosion) and irrigation without adequate drainage (leading to salinization). Long-term experiments have provided some of the best data on how various practices affect soil properties essential to sustainability.
