Appendicitis is the inflammation of the appendix. The appendix is a pouch at the start of the large intestine. Symptoms usually include a sharp pain in the lower right abdomen. Also, nausea, vomiting, and decreased appetite are common. However, about 40% of people do not have these typical symptoms. If the appendix ruptures (splits) the result is painful peritonitis, and sepsis.

INTRODUCTION TO MEDICAL PARASITOLOGY

The sociology of health and illness, alternatively the sociology of health and wellness (or simply health sociology), examines the interaction between society and health. The objective of this topic is to see how social life affects morbidity and mortality rate, and vice versa. This aspect of sociology differs from medical sociology in that this branch of sociology discusses health and illness ...

Sociology of health and illness - Wikipedia

Health equity refers to the study and causes of differences in the quality of health and healthcare across different populations. Health equity is different from health equality, as it refers only to the absence of disparities in controllable or remediable aspects of health.
