The relationship between women and video games has received extensive academic, corporate, and social attention. Since the 1990s, female gamers have commonly been regarded as a minority, but industry surveys have shown that in time the gender ratio has become closer to equal, and since the 2010s, women have been found to make up about half of all gamers.

Violence against women and girls is one of the most systematic and widespread human rights violations. It is rooted in gendered social structures rather than individual and random acts; it cuts across age, socio-economic, educational and geographic boundaries; affects all societies; and is a major obstacle to ending gender inequality and discrimination globally.
