Premenstrual syndrome (PMS) is a combination of symptoms that many women get about a week or two before their period. Most women, over 90%, say they get some premenstrual symptoms, such as bloating, headaches, and moodiness. For some women, these symptoms may be so severe that they miss work or school, but other women are not bothered by milder symptoms.

Low Back Pain Guidelines from Around the World A Chiro.Org article collection A new addition from the American College of Physicians (2017) recommends the use of noninvasive, non-drug treatments for low back pain before resorting to drug therapies, which were found to have limited benefits. One of the non-drug options cited by ACP is spinal manipulation.
